

To Whom it may concern;

With the advent of 911 and the masive power failure on the east coast still fresh in everyones mind, Take great care in avancing the broadband powerline use ase it may be extreamly detrimental to Amateur Radio. This is the backbone for EMERGENCY back up to the local and county level systems. It is also used as part of the National Weather systems Skywarn, the early warning system of voleteer storm spoters.

Thank you for your time and consideration

Tom Luetscher
